SARAJEVO
1961

CONTENTS

Preface
Prof. *V. Butozan*
Opening Adress to the Symposium
Prof. *E. Grin*
Chairman's Opening Remarks
Prof. *P. Stern*

A. Moderator: Prof. Marthe Vogt

I. BIOLOGICAL TESTS
J. H. Gaddum,
The Estimation of Substance P in Tissue Extracts . . . 7

II. PURIFICATION (UNITS)
S. Huković, R. Košak and P. Stern,
Parallel Central Effects of 5-Adenylic Acid and Substance P Preparations of Various Potencies 15

III. ACTIONS
K. Umrath,
The Relation of Substances P to Neurotransmitter substances 23
H. Caspers,
Some Actions of Substance P on the Cerebral Cortex and the Brain Stem Reticular Formation 29
B. Pernow,
Some Effects of Substance P in Man. I. Effects on the Circulation. II. The Effect on the Intestinal Motility . . 45
B. Pernow and U. S. v. Euler,
Effect of Intraventricular Administration of Substance P in the Unanaesthetized Cat (Film) 53

B. Moderator: Prof. J. H. Gaddum
F. Lembeck,
Lack of Interaction Between Substance P and Drugs on the Intestine 55
B. Pernow and S. Wallensten,
The Relationship Between Substance P and the Motility of the Small Intestine in Man 57

ANU BiH АНУ БиХ

D. B. Beleslin and B. Ž. Radmanović,
The Effect of Substance P on the Isolated Superior Cervical Ganglion of the Cat 61

V. Varagić, D. B. Beleslin and B. Ž. Radmanović,
Some Peripheral Neurotropic Effects of Substance P . . 65

Radmila Pržić,
The Influence of Substance P on Attack Against the »Writhing Syndrome« in the Mouse 71

R. Milin,
The Influence of Substance P on the Nervous System of the Earth Worm (Lumbricus terrestris) 75

IV. SPECIFIC ANTAGONISTS

P. Stern and S. Huković,
Specific Antagonists of Substance P 83

C. Moderator: Prof. K. Lissák

V. DIFFERENTIATION FROM OTHER SUBSTANCES

G. Zetler,
Two Hitherto Unknown Biologically Active Polypeptides in a Substance P Preparation Made from Cattle Brain . . 89

VI. DISTRIBUTION

F. Lembeck,
Aspects Concerning the Occurrence and Distribution of Substance P in the Brain 97

J. Franz, R. A. Boissonnas and E. Stürmer,
Pharmacological Properties of Substance P Isolated in an Apparently Pure State 99

U. S. v. Euler,
Distribution and Action of Substance P in Fish and Invertebrates 103

U. S. v. Euler and F. Lishajko,
Presence of Substance P in Subcellular Particles of peripheral Nerves 109

Danica Kocić-Mitrović,
Substance P in Pregnancy 113

D. Moderator: Prof. U. S. v. Euler

VII. COMPARISON WITH OTHER BRAIN POLYPEPTIDES

K. Lissák and E. Endrōczi,
The Inhibitory Substance of the Brain 117

ANU ВиХ АНУ БиХ

CONTENTS

A. Carraro, F. Clementi, F. Fraschini, L. Martini and E. Müller,
Neurohumoral Control of the Anterior Pituitary Gland . . 123

W. A. Krivoy,
A Comparison of the Actions of Substance P and Other Naturally Occurring Polypeptides on Spinal Cord . . . 131

VIII. INACTIVATION

P. Stern, Ivanka Gašparović and Julijana Kovač,
A Factor Inactivating Substance P Present in the Serum of Pregnant Women 139
